

TPS Mini Vacuum/Gas Tray Sealer

Why choose MAP packaging?

Modified Atmosphere Packaging is an effective and intelligent way to maintain natural freshness and quality of prepared foods.

The combination of the correct food-grade gas mixtures, trays, film and packaging equipment will extend shelf life of the food.

CiMa-Pak can supply the full systems including the trays, film and packaging machine.

Why Choose TPS Mini MAP

- **Extend shelf life**
- **Maintain freshness and quality**
- **Expand market and product range**
- **Tamper evident seals**
- **Reduce waste and returns**
- **Low to medium production levels**
- **Affordable**

TPS Mini Table Top Vacuum Tray Sealer

The **TPS Mini** is a tabletop vacuum tray sealer with gas injection for optimal shelf life at an affordable price. An excellent presentation is achieved with a cutting system that follows the exact shape of the tray. With a small foot print, it allows the **TPS Mini** to fit easily into any kitchen or production assembly.

The moulds are quickly and easily changed without tools, making this machine suitable for many types of trays and film. The computer controlled sensor for vacuum and gas injection ensures the best possible shelf life at the quickest packing time.

Will seal one or two trays at a time depending upon tray size.

Specifications:
